

# OKANAGAN COSMETOLOGY INSTITUTE

## Esthetics & Nail Technology Career Program

The OCI Esthetics & Nail Technology program is an advanced, fast paced program that teaches the compulsory practical and theoretical skills of a competent esthetician and nail technician. This fast paced condensed course is designed for the individual that is ready to step into the spa world with a strong repertoire. OCI offers both programs concurrently so you are able to take advantage of the shorter program length and the student discount offered!

This program teaches the student how to pamper a client from head-to-toe. Including skills such as; natural nails, gel nails, acrylic nails, nail art, nail fills, microdermabrasion, chemical peels, facials, body treatments, hair removal, make-up artistry & eyebrow design.
